GEN SHERMAN IN MEMPHIS, -The Usion Ap peal is much pleased that Gen Sherman in es suming command states his intention to respecand enforce the nrders of his preducessors. The hopes therefore that men of rehellious sentiments entertained of the recall of Gen. This is destined to be n memoreble day in the istory of Philadolphia, and an epoch in this desdating war. She is to be clothed amid-bips with thick iron platas, which are to extend about five feet below the water line; and she will have three great revolving gun-turrets on deck, and a powerful iron besk of ram on her bow. This besk ins making nine inches of iron on the front edge.

These platas are laid over and rive'sd to one conress so as to scente the whole in the most rigid and perfect manner. These gan towers for the Kancke are now being constructed at the Novelly Works, in this city, where the plates for them, likewise those for the armor, are bent to the proper curves. Fach plate for a turnet is about nine feet in length by forty inches in width, and an inch in thickness. Two conrect of rivat holes are punched out in each, and they are all bent cold in a powerful bydranlic press. The hed plate of the pross is of a convex form.

The bending of the thick plates for the ram, and also for the sides of the frigste, is quite a different and difficult operation to perform compared with those of the gun-towers. Each of these plates has to be beet to the proper curve to snit its own particular place on the vegasl, and not only the he ad side that the edges also must be bent to suit the particular curves. OF GRAVES (ODNTY.

THURSDAY, JULY 31, 1862.

To the Editors of the Louisville Journal: HENRY COUNTY, KY, Jaly 29, 1862. Ought a man, for mere profession of levalty, to be exampt from "General Order, No 5," issued by authority of Gsn. Boyle, especially when such person voted last summer for the "secession can didate" for State Representative and refused from the world vote for the Union aominase for country (fices? Such is the candidate which has announced bimself "an independent Union candidate" for County Clerk of this country; and, I doubt not, such is the record of independent candidates generally who are courting the support

ndidates generally who are courting the supposed seces-ionists.

REAL UNION. A "mere profession of loyalty" may no subject a candidate to the action of General Boyle's order, but it certainly is ground for a loyal constituency to refuse him is vo'es. The object of Gen. Boyle is to provide for a thorough enforcement of the laws and particularly of chapter 509 of the acts of the present Legislature which amends ebapter 15 of the Revised Statutes, emitted "Citizens, Expatriation, and Aliens." As its provisions are of commanding importance, we will again

anote it in full: §1. Be st engeted by the General Assembly of the Commonwealth of Kentucky, That one citizen of this State who shall enter into the service of the so-called Confederate States, in either n civ or military capacity, or into the service of the socialed Provisional Government of Kennucky, heretofore entered such service of either the Confederate States or Provisional Government, shall continue in such service after this act takes effect or shall take up or continue in arms against the military forces of the United States or State of Kentneky, or shall give voluntary aid or d assis ance to those in arms against said forces, shall i semed to have expetriated himself, and shall ac

to do to, shall not be permitted to exercise any sinch right or privilege.
§ 3. This act to be of force in thirty days from

Now our correspondent will perceive that when a candidate asks that his name shall be placed on the poll-books he attempts to exercise a constitutional and legal right which belongs only to citizens of Kentucky. If, therefore, any one has so conducted himself as to have forfeited that right under the first section shove recited, he is deemed to have expatriated himsolf and must negntive on oath that expatriation. The proper form of that oath would be in substance as follows: "You do solemn'y swear that you have not enlered into the servies of the so called Confederate States, in either neivil or military capacity, or into the service of the so-called Provisional Government of Kentucky, in either a civil or mili ary eapacity since the 11th day of April, 1862, nor ave been in such service in either the Confederate States or Provisional Government since said date, nor taken up arms against the forces of the United States or State of Kentucky, nor given voluntary aid or assistance to those in arms sgainst said forces, so help you God." If any candidate or voter esn purge himself by this outh of negation, he is of course entitled to excreise the rights of citizenship. If, however, his loyalty is lukewarm or questionable, the people must deal with him as he deserves. Never was there a sterner duty imposed upon the voters of the State than that they will be called upon to perform on Monday next. In every county of Kentucky where the secessionists bave the

power they have driven the Union men away,

stolen their property, and expelled their fumi-

lies from their homes. Never has there heer

such jutbless and relentless waifare waged; its

spirit has been demonia; and hellish. We have in our city to res of refngees who have been compelled to leave their busine s. property, wives, and children behind, and for long and weary months they have had no word from the loved ones, while they have doubtless hoen ruined in their possessions. The traitors in our midst in the loyal districts of the State, who sympathize with these seonndre's, and would impose the same penalties upon every Union man if their power equalled their malignity, are always prating of the injustice and eruelty of the government in arresting suspeeted men or sending known disorganizers to mi'itary prisons. We think that the time has arrived when every lukewarm Union man should be treated as nn opon enemy, and when every man who refuses to shoulder a weapon in defence of the country, hecause of his sympathy with the enemies of the Governlines and forced into the more genial latitude of the Confederacy. We believe that it is as dangerous now to harbor a rebel sympathizer among us as it would be to allow a eigar to be smoked in a powder magazine. Clemency t known traitors is direct cruelty to our wives and children. Forhearages with the wretche who sympathize with treason is but nursing viners in our hosom to sting us. How many men are there we could designate by name who, if Morgan or any other horse-thief and marander were to reach our city limits and de mand its surrender, would bring out their con eesled arms and ammunition and shoot down the Home Guards in the streets! Every reader can name his score or two, and yet they are n'lowed to hreathe the samo air with loyalty, and dare to prate of rights and governmental the smallest change possible. tyranny. It does not seem necessary that Gen. Boyle should interpose his military authority to punish such public enemics where the people have the remedy in their own hands,

We think that in this matter, as in others, her towed, as was published at the time, up the Yazoo river a little ahove Vickshurg, in order she was and what was expected of her was known to everybody. At any time throughout two whole months or more, a single Union gnnboat might have gone up the Yazco and captured or demolished her in fifteen minutes. But there was no movement in that direction until a few days ago, when two gunboats and a ram went up the Yazoo, but the Arkuneas, baving in the meantime been completed and made ready for setion, and possessing the most ticmendous power, fell upon and acarly aunibilated one of them, put the second to flight, and pursued the third to the front of Vickswhole Union fleet of fourteen or fifteen gun-

burg, and there, running the gauntlet of the hoats, which, strangely enough, were eaught unprepared, planted herself under the protection of the shore-batteries to make a raid perhaps hereafter and deal destruction to the extent of her means. We trust and believe the will be destroyed where she is, but it seems a pity and a shane that a craft, got up by the rebcls with their very deficient means and their imperfect knowledge of naval architecture, should prove an overmatch for the gunboats built by the United States at such a vast expeace of money and time and vauated as unonquerable an I resistless Our gunboats on

the Mississippi have been cut through and through, some of them scores of times, by henvy shot in every fight, but we are told that our heaviest halls glauced off by hundreds from the Arkansas as if they had been Indiarubber, and, when our gallant men boarded her, they could only stand upon her surface to ho ricked off by the rebel sharp-shooters from below, not being ablo to find a solitary openng hy which they could penetrate to where her death-dealing crew were at work.

Aud serious apprehension is evidently felt that even a worse game than that of the Arkansas may be played upon our fleet co opera ting with Gen. McClellan's army upon James liver. It is well known that a river-monster, sul posed to be more formidable than the Merimae or the Arkansss, has long been building at Richmoud, a monster mounting the heaviest guns in the rebel Confederacy and fitted up as a ram. Indications have been given that she is now about ready for work. and it is not improhable that we may hear, any day, of her dash among our James river craft. It is not likely that the Galens, which was so readily ridd'el by the gnus of Fort Darling, could long resist her, and even tho deemed to have expatriated him elf, and shall no lorger he a cilizen of Kentucky, nor shall he again he a cilizen except by permission of the Legislature, by a general or special stetute.
§ 2. That whenever a person eltempts, or is called on to exercise any of the cassitational criegal rights and privileges belonging only to citizens of Kentucky, he may be required to negative on oath the expatriction provided in the first section of this act; and upon his failure or rolusal

day to day is to hear of his marchiag in resistless strength upon Richmond, and thus putting an end to all apprehensious and speculations as to the safety and success of his noble army. We presume there is no chance that any of the powerful United States boats, now building upon the plan of the Monitor with the addition of armed prows, will be finished in time to play any part whatever in the James river or Richmond deama.

Of the rehel war-craft said to he preparing or prepared at Charleston and Mobile, we have not time to speak now. We trust they may all good citizens, to our letter of the 27th inst. bring no disasters to our navy, but certainly the rebels have got a start which they should never have been allowed to get.

We give goud news from Mt. Sterling, and we trust that it is true. The statement by telegraph from Paris is that General Bullitt, the same that made the late raid into O yen and destroyed the bonds taken by the Provost Marshal of that county, made his aposrance at Mt. Sterling on Tuesday sfter ioon at the head of 244 guerillas, demanded in vain the surrender of the town, attempted to take it by force, met with a repulse from the home guards with the loss of a number of his men, retreated down the turnpike, encountered a party under Major Bracht of the 18th Kentucky regiment and sustained a second defeat, rushed back towards the town where he got a third defeat at the hands of the citizen soldiery, and then resolved his movements into a complete stampede, losing eight kill'd, an unknown number wounded, and forty-eight prisoners, with all their horses, the proceeds of days and nights devoted to the guerilla fiue arts.

It is to be hoped that Major Bracht, said to he ia pursuit of the rest of the gang, has way of running a Bullits, and we trust they have stopped that Bullitt with one of his lead-

If he said that the people of the United Sentes ought now to pause in this war whilst the rebels are raging for the destruction of our nationality, tha we ought to stay our hands and let the rebels have their own way until we can satisfy ourselves that our views as to slavery, &c, will be in no respect interfered with by the prosecution of the war for the Un'oo, he is about a ment, should be sent under guard to the rebel good a rebel aheady as can be found maywhere North or South. As the ceessionists cannot make semi-annual robbe ries of Federal mints, eustom-honses, and postoffices, of course they are out of funds. Last year they paid out their stolen money.

Montgomery in the direction of Pound Gap route, and it has heretofore been a very successful way of escapo. A party of Henry county Home Guards are in search of these outlaws, but their retreat is very thickly woodod, and sympathizers will give them timely notice of the approach of any Union forces. The fact that as soon as a man turns seec sion borse-thief and takes up arms sgainst his coun try, or wishes to escape the vengeanes of the law, he makes his way into Owen county shows that it is a sort of Alsatia, a senetnar for thieves and vagatonds. We helieve that some men who have con

back are acting as spies for the enemy, and

they cannot conecal their sympathy with the rebel cause. They all know perfectly well what is going on in Owen. When Bullit was at New Ltherty a fortnight since and robbed the I'rovost Marshal's office there, the citizen welcomed the marauders, and shook ther warmly by the haud. We are credibly informed that men, who had been released from pris on under bonds and taken the oath, and who were at the Owenton meeting, which passed reso'utions without a dissenting voice to the eff.et that they would aid in espturing guerilla pands or any organization coming into the county armed for unlawful purposes, were most earnest in this welcome. Bullit had only eighteen men with him, and if Judge Nuttall, or any prominent citizen, had attempted to enfores the Oventon resolutions, the whole gaeg could have been arrested. But they never intended to redeem the pledges made, nor will the Owen secessionists, who made the pledge and voted for the resolutions, give information to Union mea, that would lead to the apprehension of these msrauding hands, and the result is, their movements are but little koown even when they have been encamped within n mile or two of the houseof loyal men for several days. In view of the notorious facts that returned soldiers from the Confederate army, and persons who have been cleased from the Military Prison here, have joined these Owen county guerilla parties and gone cff with the companies heretofore formed, it will be necessary for Gen. Byle to take summary measures to elear that district of the State and keep it in subjection to the laws.

When this is done we shall have enotion.

Marble Works. When this is done, we shall have another howl from the rebol sympathizers, but we do not presume that Gen. Boyle will be influenced by their hypecrisy. He will do his duty and his whole duty, and receive the thanks of all peaceable and peace-loving citizens. We have shown what a rotten state of society exists in Owen county, and no one will presume to deny that it will require extensive enutery to purify it. But to show what an atrocious game its citizees are | laying, we invite the attention of the military authorities, as well as of

It seems strange there should be so nuch difficulty in eatching John Morgan when all history tells how casy it is to catch the plague.

We should think that late events might pen the eyes of every loyal man though he had a pound-weight hung to each eye-lid.

The gnerillas retreating some two mller came upon Major Brocht, of the Eighteenth Kentucky, and Provost Mershal of Lexingtor with one hundred of his regiment, and thirty home gnards from the neighborhood of North Middleton, when they broke in coofusion and scattered in every cirection, Major Brocht purening end firlng upon them. Our lose was three home guard; woneded, one fatally, and one of Major Brocht's men severely wounded in the hand. Major Brocht took from asventy to one hundred prisoners.

ARREST OF A REBEL SPY -A relel captain nemed Owsley, from l'ties's army, was arrested yesterday, by order of Col. Bruce, at Bowling Green, sent up to this city, end confined in the Military Prison. He hoasted that ha had been lurking about Louisville for two months, and seemed to be indifferent as to his fate. In convereations wi h persons on the train he said that Gen Price hed crowed the Mississippi at White river, on the 15th inst, with fifteen thousand men, and that he is now in Missonri or on the way there Van Dorg, be says, is at Vicksburg, Jeff Thomp son at Grenads, Miss., with ten thousand nods ciplined troops, Beanregard at Richmond, and Brecklinidge and Bragg at Chattunooge, with one hunnred and slxty thousand men.

The medicines were purchased at the drng-store of J. S. Morris & Co., and were valued at two thousand dollars. The officers deserve much credit for their vizi lance in making the arrest.

DR. HOPSON AND MR. HUNTER -A Mr. Hunter appears in our paper this morning as the defender of Dr. Hopson. We have hat a few words to eny on the subject, for we really do not think Dr. II ps in worth helf a dozen lines. But we say to Mr. Hunter and all other men who livest bave his way of showing their loyalty, that every word we attored about Mr. Hugter's imprisoned friend is true and can easily he substantinted, and if we had painted the subject on the easel six times as black as we painted him, abundant truth would have supplied all the hues, and abundant proof would have made all those hues permanent. With this we dismis the rever nd traitor and

FELICITIES OF A REGIMENTAL QUARTERMAS-TER -A corresp ndent of the Herald with the arm of the Potomsc says:

In the present dearth of interesting and exciting news from this sectior, I have been induced to record the trials and miseries of that much at used class of officers known as quartermasters, that o here may be warned in the to avoid their fate. Stories have been told of large sums having been paid by deluded i dividuals for situations as Regimental Quartermasters. These stories may have been true; bu, to judge from the universal testimony of the Quartermisters hereahouts, it must have been done under someway singular hallucine ions as to the similar ments to be derived from such a situation. Well, that is a Regimentel Quartermaster, as is indivated by the mysterious "Q. D." apon the poor davide shoulder strains. This is, however, by he means necessary to identify him. His specius it as plain by stamped upon his countenance as the miserles of his situation are certain. The horrors of the "Inquisition" are nothing to the horror of "requisitiot". The regiment on the one hand, and the Government on the other, are the Scylla and Charybdie—he upper and the nether millstone, between which the poor Regimental Quartermaster is ground to powder.

Mr. R berts presided, a d that gentleman having bueffly opened the proceedings, Mr. Ligh, to moving a resolution pledging the meeting to support the movement, said the working classes of England did not know the power they por essed. The question was purely one for the working classes, for the framway was the conveyance of the people. Mr. Truin, on rising, was again greeted by a perfect storm of applause, and it was some minutes better he could address the meeting. He reinsed to do so, saying he had called one the "Queen," one the "Prince of Walks," and he could not see why the people should not have one. (Cheers) The geniry had been his gnesse, but they were the first to desert him. The middle class, of course, followed the upper class whenever the question related to the people. He was told in the grand places where he visited that he forgot he was not in America He forgot rothing of the sort, and defed any one to say that he had done anything that was wrong (Cheers).
